---

Greetings [REDACTED],

I have bad news - Health Connections spoke with their supplier - there are too many restrictions, and they are not allowed to special order this vaccine. The third doctor I contacted just called - they do not have it in stock.

Everyone has referred me the the Department of Health at the local hospital. Do you want me to pursue this?

thank you.. I will ask him if he wants to get it in st thomas, and if so, we can see if Health Connections can special order it  
will let you know

Greetings [REDACTED],

I contacted Red Hook Family Practice (across the street from FTC). They do not have the vaccine. Health Connections (also a private office) may be able to special order the vaccine today and have it on island by Thursday. There is one other private medical office that is calling me back this morning.

Please advise, DW

Hey daphne,

Can you do me a favor and see if there is somewhere in St Thomas JE can get a Yellow Fever vaccination this week. He is meant to go to Africa this month and his is expired and he didn't have a chance to get in NY before he left town. If you can just let me know first( he didn't ask me to find out) and I will address it with him. Thanks.
