Hey Rich, I'm still working on getting a photo printed for one of the "canvases" in the main stairwell. Currently, he is only having me work on changing the middle one. I know it will be very tricky, but can you work on getting me the exact measurements of this space? It's going to be a bitch trying to orchestrate printing and mounting of this thing and I want to ensure I have the exact measurements! Janusz and [REDACTED] are coming back to NY on Thursday and maybe he can help with measuring?

JE is due back in NY Saturday evening, then planning on leaving for paris on Monday night. Thank you!!!
