Thanks Janusz.. from the original set of photos you sent me, one of these units is marked with a post it with a number 3 on it. It looks like it opens from the front panel, verse from the top like the 2 in this email. We were hoping we could use one of these as a media center on LSJ, thus would need it to open from the front. Can you have a look when you're there today and see if you can find the one which opens from the front and take the measurements of that one and also see if it can open with the front panel coming outwards, versus inwards like the photo shows. I can't tell from the photo if that hinged panel on the bottom comes up to enclose the space. thanks

Hi [REDACTED], I have measured some of these units which are unpack. They are almost the same, the difference is in 1 to 3 inches. One of them measure - 56 inches length, 21 width, 43 hight, another 59 - 21- 44, or 57-22-44. Some pictures how they look inside.<DSC_1027.jpeg><DSC_1028.jpeg><DSC_1029.jpeg><DSC_1030.jpeg>

Janusz,

When you are next in PB, can you pls go to the storage unit and measure one of the units marked 2, 4, 5, 6, 7 or 8. (If they are all the same size, which is looks as if they are, I only need the measurements of one of these units as well as photos of what it looks like on the inside. We are trying to see if we can use one of these pieces on the island for a media storage cabinet.

Thanks..

Do you by chance still have the photos of the Syrian pearl furniture which is in the storage unit in PB? Do you know what's left in there? [REDACTED] mentioned there were a few pieces sent to the ranch awhile back. JE wants all the pearl furniture in storage there to be sent to the ranch. I noticed a few pieces are out of the crates.. do we still have the empty crates by chance that they came out of that we can put them back in for shipment?
