Hi

It was very nice to meet you both as well. So here is a brief explanation of the piece and some photos to view. It can be mounted on the wall or from the ceiling depending on how and where would work for your condition. Lets touch base when you get back into town next week. Enjoy your weekend.

"Inevitable Futures"

5 Drawings hanging together made with
Fireworks, Charcoal, and Ink on T.H Saunders 140 lbs watercolor paper
Dimensions: 22 in x 30 in x various up to 18 in.

Each drawing has a presence of its own and the drawings hanging together create an exciting energy where the space between them becomes filled with light and shadow, information, and dialogue between the different planes of existence and time unifying the drawings into a strong direct emotional experience. This experience comes from the Skull's profound presence that morphs and transforms by changing the distance between the drawings or their order. Subtle emotions and details of light and shadow can also be created by changing its light conditions and or sources.

best regards

DAS
