Are you measuring the fringe as part of the dimensions on the 17' long side? Just checking as the order for that rug had the measurements as 15'x15'. I'm getting a quote for a new one and want to clarify if I should order 15'x15' or 17'x 15'

Existing rug is 17 (wall to sliding doors) x 15 (wall to wall)
15 is as wide as you can go without the doors hitting the rug
17 is as long as you can go unless you want to open sliders and walk straight onto the rug
This is all based on the rug being centered on the room
Hence I believe the rug cannot be any larger
