Hello Paulette. Thank you, I received the quote. I believe Laina left this exercise bike out of the quote because she said they wouldn't be about to make the contours of the back fit how the the chair is shown. He would still like to have the bike recovered in leather and is OK if the back is not perfect and if there is some gaping. That being said, I'm wondering if there is still enough leather to do all the machines with 5 hides. I want to put in the order today and want to make sure to order enough leather. can you please check on this for me? Many thanks,
[REDACTED]
