I think there is some confusion. There is an event dec 10-12 at asu in Tempe organized by paul Davies, and Templeton...on whether there is a law of increasing complexity in the universe. It has a bunch of interesting people including steve wolfram coming, but the topic itself is not that interesting perhaps.

Hi Lawrence,

Jeffrey asked me to find out the dates of something which is happening at the Santa Fe Institute this month? I look forward to hearing from you.

Best,
