there is a large rectangular drawing/rendering of LSJ downstairs at 71st that JE would like to be sent to LSJ with the shipment which is going. So far, I know for sure he wants the large wooden desk which used to be in the oval office, the 2 horn chairs, the large convex mirror, all boxes of books(from basement, 5th and 6th floor storage), the large rug which is on top of the black file cabinets on the 6th floor to be sent. He may be adding more from whatever we have in storage there..
