I won't be able to order until Monday anyways.. so if we can get an accurate yardage, then fingers crossed it will be in stock and I can Fedex it to island..
let's touch base monday morn.

if you don't want to wait ,I think 50 lin.ft would do the seat and 50 lin.ft. would do the back . so 100 lin ft total should do it.might waste some but it would get it strted our way if it is in stock

Hi Gary. Je wants me to order a gray fabric I found in ny for the recovering of the banquetts in the kitchen. How many yards would I need to order if the fabric comes in a width of 55"?
The bolsters will be done in the white fabric
