Hi James,

I had given the parquet design I want to Wayne along with my floor plan when I came into the showroom on May 13, but I guess he never gave it to you. Please see the design I would like below. Basically your standard parquet design, but with a much larger scale. I would like the overall squares to be 25" with each plank 5" wide. I would like to get a quote for this in the color wood of the sample I had made. Thank you.
