Attachments: VI_POST_IRMA_MARIA_SURVEY.pdf

Good Day Providers,

The VI Department of Health's Office of Professional Licensure & Health Planning is compiling data on how Hurricanes Irma and Maria impacted health care service and delivery in the United States Virgin Islands. Your input is most valuable and important. Please take a moment to complete the one page survey for each island where you have a practice location. You can return the surveys via email, mail or hand delivery by March 5, 2018. Please feel free to call [REDACTED] or email me if you have any questions or need further clarification.

Thanking you in advance for your time and effort.

Best Regards,

--

Deborah Richardson- Peter, MPA

Director, Professional Licensure & Health Planning
