The sent it to the house via fedex on friday, so it may not have arrived yet. I would just keep a look out for a fedex delivery to me from them. thanks..

Hi [REDACTED] yes I can . I do have a busy week with the Siemens up grade in progress this week and next but I will make time to get it done. Is the sample in the house? and where?

> Hey rich. [REDACTED] have fedexed a sample of a french light socket which they need an american replacement for. It's for a chandelier JE purchased in paris for lsj that they need to rewire. they are wondering if you could possibly try and find this in NY and buy 20 of them to send to LSJ. Last time they needed a part to rewire from french to US, I found what they needed at a place called Clarity Lights at [REDACTED]. The guys name is Toby. Let me know if you can do this! thanks!!
