Hi [REDACTED],

These are a few ideas for the minimal leaf arrangements. You can use the plants that we have around the house for that if you like. But I do realize that we need new vases, I will work on that and order some.

I will also send you some flower ideas in the next email.

I hope this helps. It is just a start, and you can play with it, you have a great ability with flowers!

If I see some other ideas in the future, I will also send them to you. And if you see something else that you like, please feel free to send me photos as well!

Thank you so much!!!
