OK thank you. Do you have any one you could recommend to make the case for me?
Also, any input on the African figures?

Best,

[REDACTED]

It will be very expensive as we use cigar box mahogany for projects such as these. We think the best way for you to do this is to purchase a ready made cigar case in plain wood and to have us re-cover it in your choice of leather and suede. Please advise us to how you would like to proceed.
