Hi Ana,

Just a few little notes about the housekeeping that I wanted to let you know about:

1. Fruits and berries: please do not slice fruits, and do keep berries in the containers washed, as they go bad very quickly that way. I know you do it to make it look nice, but unfortunately they don't stay fresh that way.
2. Scented candles: please do not buy them locally or online, because Mr. Epstein is quite particular about the smells. When it comes to personal or decorative objects, please let me know, we have much better choice in New York, so I would buy it there.
3. Mouthwash: thank you for getting the new mouthwash that I asked for, we both are using it, please also put it in all the cabanas, second sink in the master bathroom, basically it is the only mouthwash we should have for now.
4. GSJ kitchen: please bring another set of salt and pepper grinders, so we have one in the kitchen and one at the beach bar. And also please bring a liquid hand soap to the GSJ kitchen.

Thanks a lot!

Karyna
