Subject: Wifi routers, printers
Date: Wed, 25 Jan 2017 19:14:22 +0000

Janusz, please add the following to your list of things to check before Mr. Epstein's arrival:
1. to check all Apple wifi routers, make sure the light is green on all of them. If it is yellow blinking light, they need to be restarted.
2. make sure all printers are working well

Thanks.
