Hi Eric,  
Still waiting to see a sample in high gloss please.  
Here is a better example of what we would like to achieve in terms of both, finish and color

Hi  
Prob won't get that shiny with water base finish. Could show you sample with high gloss  
Smoothness shouldn't be a problem.

Hello Eric,  
I received your proposal, thank you. Please see the attached photo with the look the owner would like to achieve: as you can see it is very shiny and smooth, except the color would need to be lighter. Would that be possible to do?  
Thank you,  
Karyna.
