"How to combine the colors, or how to express it in a way that will make it the most beautiful is what Lace glass is about. In other words, how to use the colors and make them transparent so that the glass is both brilliant and understated; the glass then has beauty and charm. When I look at the primitive and labor intensive process, I want to make glass out of it. To understand what glass can become is, perhaps, what I am searching for as a craftsman." - Ushio Konishi
