Hi Ladies,

[REDACTED] has started working as a consultant for a skincare company, that she says is #1 in the US right now. I copied a brief message from her below. Please let me know if any of you are interested in trying any of the products, she would be happy to help you out.
Thank you!

Here is the message from [REDACTED]:

I have just started working for Rodan and Fields skincare company (currently #1 skincare products company in the US) as a consultant...I am selling clinical, dermatologist-created skincare products. Would you forward this email to the girls if any of them are interested in considering new skincare products? I can help them figure out what they would want/need the most. All of the products are amazing - the company was created by the two dermatologists who founded Proactiv.
