Thank you Karyna!

Since I won't be able to make it, maybe I could get the same products as you chose for yourself - we have a similar skin condition prone to rosesia/ very sensitive. I think anything hudrating/ serums / creams is always a safe choice.

I won't be back till September, most likely:(if it's not too much trouble for you to keep the products till I get back?

Please see below from ██████████. Let me know if you would like to meet with her on any of the days she suggests.
Thanks.

Yes! I can come over one day with all of them. I have samples with everything. Maybe we can organize for one afternoon when I am back from Sweden. I am back August 1st, and am free all day August 2, 3, and in the morning on August 4, so any time those days would be good for me!

Hi girls,

FYI: JE would like to support ██████████ with her job and said we all have \$500 each to spend on these skincare products.
If you wish, you could talk to ██████████ to find out what her recommendations would be based on your needs. Or you can send me a message of what you are looking for and I will give it to her. You can also look at their website to get a better idea of what they have to offer.
Please let me know as soon as you can.
Thank you!

Hi Ladies,

██████████ has started working as a consultant for a skincare company, that she says is #1 in the US right now. I copied a brief message from her below. Please let me know if any of you are interested in trying any of the products, she would be happy to help you out.

Thank you!

Here is the message from [REDACTED]:

I have just started working for Rodan and Fields skincare company (currently #1 skincare products company in the US) as a consultant...I am selling clinical, dermatologist-created skincare products. Would you forward this email to the girls if any of them are interested in considering new skincare products? I can help them figure out what they would want/need the most. All of the products are amazing - the company was created by the two dermatologists who founded Proactiv.
