Hi Karyna,

Here is Bijan's bio:

Bijan Ghaseminejad was born in Iran in 1978, and graduated from Tehran's Art University with a degree in carpeting. The use of handmade carpets as an indigenous medium in Bijan's art is symbolic of traditional Iranian art and culture; by combining it with painting and vintage documentary photography, he strives to find a new way in which he can express the challenges faced by contemporary Iranian society. Since 1998, Bijan has had a number of solo exhibitions, in cities including Tehran and Esfahan.

I hope the above will satisfy your immediate needs. However, should you require further information, please let me know.

Cheers,

Shahdad

Thank you. Could you also tell me more about the piece itself and the artist please?

Dear Karyna,

The work is installed on canvas and currently in stretched form. However, since shipping the work in its current state (stretched) would require crating which would result in much higher shipping costs, it would be much more economical if we ship it to you in rolled form. It goes without saying that the works will have to be re-stretched before hanging.

Karyna, the quoted price does not include shipping costs. However, the good news is we are currently in the midst of bringing a good number of works from Tehran (where the work currently is) to Toronto and can include this one for you as well which would cost you nothing. Therefore, you will only be responsible for the shipping costs from Toronto to your designated destination within US once the work arrives here, which would not cost you much.

So, please let me know how you wish to further proceed and I will do my best to get the work to you at very reasonable costs.

Best,

Shahdad

Dear Shahdad,
Is the work installed on the canvas or framed and ready to hang? And is the shipping within US included in the price?
Thank you,
[REDACTED].
