---

Jeffrey,

We should have cost estimate for Aux tank UFI control box repair for your approval next week, best case Scenario is to have B727 back in service end of next week Dec 18th or Dec 21st area.

Thx,  
Larry

---

Larry,

I placed another call into TDG to get an update but had to leave a message.

They owe me a quote to conduct a complete check out on the box once they have replaced the UFI.

I am waiting on this so I can quote you and get a completion date from them.

I think at this point you should tell the Boss, we are looking at a return by the end of next week.

I will continue to call them and once I have made contact and have numbers I will be right back to you.

Regards,

Peter
