Great! I just met with the Registrar and she promised to correct today your registration for this year. This means that you will be dropped temporarily from CourseWorks for the 4 courses (The Body, Oral Histology, Oral Pathology and Oral Radiology). We will manually add your uni back so that you will have access to those resources again.

Letty Moss-Salentijn, DDS, PhD
Professor of Dental Medicine
(in Anatomy and Cell Biology)
Vice Dean for Academic Affairs

Thank you so much for your prompt attention. I greatly appreciate your guidance. I will make a point to schedule a short interaction with two or three of the TA's and then choose the one that I believe would best impact my personal learning style. Rest assured, I am highly focused and will, of course, give the test prep my all. I remain Karyna Shuliak.

Karyna,

Thanks I will ask the Registrar to remove the four courses from your transcript.
Thank you for sending me the copy of your study plan. I do not know what happened to my file, but now I can act on your transcript.
Please tell me which of the TA's you would like to work with to sharpen your board multiple choice examination skills.

Dear Dr. Salentijn,
Thank you once again for taking a time to deal with my unique circumstances. I am attaching here the file with the schedule for the second year and also my study plan. I am looking forward to meet with you at your convenience.

I remain Karyna Shuliak.
