Long Link: <http://www.fortmyers.com/turks/crusviLstJames.html>

Dear InterServer Representative:

I am the owner of the island "Little St. James Island." Before I purchased the island, the previous owner had rented the island out and used a site on your server to do so. I would like to get this link removed. I am not renting my island and the listing of it for sale on this site is unauthorized. I have contacted the person on the page, however, they said they no longer handle that page and they wouldn't know who to talk to or how to go about removing it. The long link I would like removed is:

<http://www.fortmyers.com/turks/crusviLstJames.html>. Please let me know how to proceed.
