Master Bedroom:

- The focus of the bedroom and the entry hall is directly on the toilet door. Please provide options to either change the plan of the dressing room to offset the entrance or to provide a screening method for the doorway through either a curtain or a door similar to the cabinetry installed on either side.

- There is no new furniture in the bedroom except for the bed, side tables and the chair. Please provide the balance of the furniture to complete the room.
- The curtains make the room look short. Please provide alternative options for the window treatments or to raise the curtain track and lengthen the curtains.
- There is still the old desk, chair, cabinets, cheap mirror, ugly desktop light, not to mention the floor lamps by the bed. Please address which items are staying and which items will be removed/replaced.
- Please provide new armoires.
- The bed lamps need new bulb covers.

#### Dressing Room:

- There are no lights. Please provide light options.
- There are cheap Home Depot lights on the top of the new closet. Please provide alternative options.
- There are no lights in the closet at all. Please provide options.
- No mirror in the dressing room. Please provide options.
- Please have the electrical outlets on the top of the cabinets removed.
- Carpets needed, please.
- Need new lamps to sit on top of the cabinets.

#### Great Room:

- Please provide 2 side tables.

#### Guest Rooms:

- There is no light coming into the guest house since the new panels behind beds are installed over the windows blocking all the natural sunlight. Please provide design alternatives so the sunlight is not blocked.
- The curtains are too short and the old furniture is still in the rooms. Please provide design alternatives and complete the installation.

#### Living Room:

- The shelves have no back and the top shelf ends extremely awkwardly in the wall. The shelves have a false back that is faux painted to match the walls. Please provide alternatives for options for the top shelf.
- The shelves frame the ugly doors and curtains - this makes no sense. Please address.
- The shelves have no light and in fact there were no new lights in the living room. Please address.
- The floor lamps as well as the table lamps are old. The screen? Curtains? Please provide options.

#### Office:

- There is absolutely no new furniture in the office. Please confirm whether any furniture was decided on for this room.

- The wires from the computer hanging behind the table. Please consider when/if choosing new furniture for this room.
- The lights in the bathroom haven't been changed. Old lights were removed and then reinstalled because no new lights were ordered. Please provide options.

Master Bath:

- Have new sinks and hardware been chosen? If yes, when is their scheduled arrival date? If no, please provide options.

Outdoors:

- All furniture cushions need to be recovered – all around the island + outside of the great room.
