

i will spare you the article the journalist wrote because it's all that Conrad states and quotes that it is and worse.....

ghislaine, i found Conrad's letter a gem - impressive, cogent, moving and v  
v helpful as a current and future example  
of showing up true colors in a way of complete integrity - something it was  
not easy for him to do at all. And i admire him for it and am widely  
disseminating his letter to important people who need to be inspired in  
their own efforts against similar infamies.

could you please send me Conrad's email/fax as i would really like to write  
to him to thank him  
for having the courage to write in the way he did.

love,  
me <<Conrad Black Publisher's Letter.doc>>
