Subject: re Rebecca Rosen visit to the USA

Date: Wed, 09 Apr 2003 10:57:41 +0000

My darling, Rebecca Rosen, her husband Massoud who is an excellent ophthalmic surgeon and her two brats are going to the USA for 2 months in San Francisco where Massoud is going to train for plastic surgery of the eye by a specialist there. She asked me for your email which I gave her and wrote to her as follows.

She is a doctor, as you know and actually very nice and he is super nice and I think she only just wants to say hi and kiss you en passant. If you can, give them a drink it would be nice, providing you have Florina to keep an eye on the two brats whilst they are with you in the room !

Much love

maman

My dear niece,

It was nice of you to have made the effort to come and see me and I appreciated it very much. Your children are a handful, as are all very small and intelligent children who do not see their mother all day long!

You must come another time when Oping is here as she has a knack for keeping children quiet and interested, so we have some time to talk.

Ghislaine's email is as follows and make sure you do not omit the 1 after max which people often do!:

gmax1@mindspring.com

She does read her email regularly but I must warn you that she travels all the time between their various estates and abroad and that she finally is rarely in New York and never there a the weekend ie from Thursday evening to Monday evening!

Hope you have an enjoyable and successful trip in the USA where as British you will be most welcome!

With much love from your old aunt,

Betty
