Subject: Compact Mini Digital Video Cameras

Date: Wed, 09 Apr 2003 14:51:54 +0000

<x-flowed>

The link below is to Sony's smallest MiniDV camera, which WILL work with the iMovie on the Mac as well as the PC (via firewire). It is not as small as the ones you bought, but it looks like it is still very compact.

http://www.sonystyle.com/is-bin/INTERSHOP.enfinity/eCS/Store/en/-/USD/SY_DisplayProductInformation-Start;sid=WGUbXwumVKkb3TUydoARzESpHx7NUhLuXYQ=?CatalogCategoryID=&ProductID=QfkKc0%2eNBjcAAAD0ZZ46ymy0

JVC also has one that is even smaller, the GR-DVP3U that would also be firewire and iMovie compatible.
