It's a interesting concept similar to what Mel Fisher and the Atoucha treasures of 10 or so years ago. Basically low grade materiels that they can put a higher margin on by it being treasure and by certifying it to be so. The Idea work out pretty well for Fisher especially with the coins which is where he made most of his \$, you may have heard or viewed his exhibit in Key West. He still has 1000's of these type of emeralds avaiable also. Anything great he sold to the trade years ago. What you're thought?
