---

Just want you to be careful please. [REDACTED] more experienced is all, long before blackberry's I learned the art of driving with my knee. I've literally logged thousands of miles in hands free mode. Used to show off how good I was driving without hands.

I would love it if you looked into some assistance, but don't go to any trouble. So, yes if it's no trouble. Thank you.

Doing homework now, whilst they take turns with the Piano instructor.

Your still gross + yes you can find one that does all - that is what a job description is for a real butler - I met one that you might like whilst I was in LA last time - I would have hired him myself and seriously thought about it. He may still be available - want me to find out? Want me to see what else is out there - easy for me to do and no trouble?

Gx  
PS

Not for you to talk about speeding in car whilst BBing - that is like the pot calling the kettle black

The smiles of surprise when they kids saw me made everything worthwhile.  
That was cool, very cool.

Made hanging with the mommies and nannies worthwhile. I tried not to interact or even look, but apparently they were all very curious (nosy might be a better term) as to why I was there.

It's a interesting concept simular to what Mel Fisher and the Atoucha treasures of 10 or so years ago. Basically low grade materiels that they can put a higher margin on by it being treasure and by certifying it to be so. The Idea work out pretty well for Fisher especially with the coins which is where he made most of his \$, you may have heard or viewed his exhibit in Key West. He still has 1000's of these type of emeralds avaiable also. Anything great he sold to the trade years ago. What you're thought?
