My "Royal Caribbean Instinct" would tell me that this is a dead deal...

Hi Phillip,

Thanks for the meeting. We remain very interested.

In response to your request we would like to avoid any issues which would discourage people from taking a cruise. The list of issues would include, but not be limited to Norwalk type illness, seasickness, any type of assault or theft. I can't prepare a complete list as I am sure that something could happen that I can't imagine today.

We remain very interested in the project as presented. The upbeat, feel good stories taking place on a cruise ship makes a lot of sense to us.

I'll look forward to continuing the conversation. Thanks,

Dan

Hi Dan,

Just wanted to follow-up again on our meeting.

Would you like to prepare a brief list of your concerns as discussed or should we shelve for the time being?

Understand either way.

Thanks.

Philip
