<p>Join Colin on the CBS Early Show Friday, April 9th</p> <p>Colin welcomes Easter with a few unique decorating tips. This Easter its all about white, pure and clean with a shot of lively color. Starting with a simple white tablecloth accented with apple green for visual impact. Whether it be colored drinking glasses, colored plates or beautiful napkin treatments, when set against a palette of white your table is guaranteed to be both beautiful and eye catching. Lean how to create two stunning yet easy centerpieces; the first with green apples and curly willow in square glass containers, and another of wheat grass tied with grosgrain ribbon and filled with daffodils. It's spring, it's alive, and it's a time of renewal!</p>
