```
<x-flowed>
hi there,
my problem is that I do not have good personal credit. so
if I am judged only on that basis, I could not get a loan - however  good my business
idea/plan
etc.
the fact is that the plan is based on a repeat (but now uniquely  automated) of the success
of the Pergamon Dictionary of Perfect  Spelling -which came out  in 1977  and sold over
300,000 copies - now that the Internet is here and one can compile all kinds of new
processes and methods... I know that I can create a winner...
