Subject: Lock your keys in the car?

>>(I haven't tried this, but passing it on anyway, sounds good to me.)

>>

>>If you lock your keys in the car and the spare key is home, call

>>someone on your cell phone.

>>

>>Hold your cell phone about a foot from your car door and have the other

>>person at your home press the unlock button, holding it near the phone

>>on their end. Your car will unlock. Saves someone from having to drive

>>your keys to you.

>>

>>Distance is no object. You could be hundreds of miles away, and if you

>>can reach someone who has the other "remote" for your car, you can

>>unlock the doors (or the trunk!)

>>

>>Editor's Note * It works fine! We tried it out and it unlocked our car

>>over cell phone!)
