I am looking to purchase a Vizsla puppy for myself. I am looking for a working hunting dog that I can train. I am looking for a male and do not mind taking an older puppy or younger dog. Could you please advise whom I should contact. For your information I live on a working ranch in New Mexico and my Weimaraner recently passed way. However I will be spending the next month or so in the New York area and would appreciate a contact name of a breeder in the vicinity.

Thank you in advance for any recommendations and for your time

Mrs Maxwell
