

Subject: Daniel Siad's Introduction of
Alex Masucci and Hazmat Entertainment / 'TRUE BLUNT MASTERS' to Mr. Jeffrey Epstein.

Dear Mr. Epstein,

Thanks for allowing me to introduce myself. I've attached a short presentation about my company Hazmat Entertainment and our global branding franchise platform: 'TRUE BLUNT MASTERS'.

For your reference, below are few hyperlinks (*CBS '60 Minutes'*, *CBS News*, *'The Daily Show with Jon Stewart'*, *The Huffington Post*) and a document outlining the platform is attached. The links specifically highlight media coverage of "The Next Great American Industry".

Briefly, 'TRUE BLUNT MASTERS' is a mass appeal multimedia and branding platform encompassing film, music, merchandising and retail all focused on *legally* creating and commercially exploiting trademarked brands within the mainstream market. This platform is related to the presently developing - and soon to be exploding - legal (medical and recreational) marijuana industry.

You're sure to have noticed the snowballing media coverage and zeitgeist related to the rapidly growing list of countries (including Portugal, Uruguay and Bermuda) and the 20 States here (including DC, California, New Jersey, Colorado and soon New York) either decriminalizing and/or legalizing medical and/or recreational marijuana. As this trend continues to reshape global cultural and commercial attitudes towards marijuana, our 'TRUE BLUNT MASTERS' platform will provide a legally viable point-of-entry (specifically, the creation of trademarks) for first mover brands that connect with people all over the world who either currently use or want to use legal marijuana.

We have entertainment industry heavyweights like Universal Music and strong connections in the film industry poised to join forces to develop and deliver the first globally recognized brands, products and events related to legal marijuana under the 'TRUE BLUNT MASTERS' moniker.

As an entertainment professional with a career spanning four decades I was one of the co-founders of the iconic Latin music company, Fania Records (acquired in 2005 by Richard Branson's V2 company for \$13M). I've also held executive positions at various record labels, including: Chris Blackwell's Island Records, Polygram Records, Universal Music Group, and Neal Bogart's Boardwalk Entertainment.

I've heard wonderful things about you from Daniel Siad, a friend of mine for many years. When I mentioned that I was starting meetings with investors in February, Daniel thought it would be important to share with you my idea of creating a global brand, 'TRUE BLUNT MASTERS'.

I look forward to meeting you at your earliest convenience to discuss this perfectly timed investment opportunity. Meeting in person to discuss the vision that I have for this Project can give you a greater perspective.

Thank you for your time and consideration, Mr. Epstein.

Best,

Alex Masucci
