Re: Jeffrey Epstein vs. Scott Rothstein, individually, Bradley Edwards, individually
Case No.: 502009CA040800XXXXMB

Dear Scott,

It was a pleasure seeing you this morning.

I have enclosed for your reading pleasure the four (4) outstanding motions and responses that were discussed this morning with Judge Hafele. Please pay particular attention to Edwards Motion in Limine as it describes in detail Scarola's strategy in using the CVRA case to preclude Mr. Epstein's ability to testify and at the same time obtain the ability to utilize adverse inferences before the jury.

I have also enclosed the transcript of the deposition recently taken of [REDACTED] (now Moody). Scarola does not represent Ms. Wild and he clearly states so on the record. In spite of this, he instructed her not to answer questions posed by Jack Goldberger which related to the CVRA case. Nobody but Scarola would have dared to do this. Some sort of Motion to Compel and for Sanctions should be on the front burner.

I look forward to working with you and will do whatever is necessary to help you litigate this matter.

Very truly yours,

W. Chester Brewer, J.R., P.A.
