Mrs. Erika A. Kellerhals
Great St. Jim, LLC
9053 Estate Thomas Suite 101
St. Thomas, VI 00802

Dear Mrs. Kellerhals:

This is in reference to your Department of the Army (DA) application number SAJ-1987-57052 (LOP-JMS) received on January 13, 2017. The project is located at the north side of Great Saint James Island, St. Thomas, USVI.

During our initial review of your request for authorization to install a new dock and barge landing at Great Saint James Island, compliance with previous DA authorization(s) at the project location was considered as part of our process.. We made a preliminary determination that you may have not complied with DA authorization number 87LP50052 (previous permit number). Specifically, you were authorized to install a 4 feet wide by 40 feet long floating dock. A review of our historical documents and submitted information indicate that the the type of structure, the dimensions of the existing dock and the RO Intake Line are not in compliance with the previous authorizaition. In addition, on June1, 2016 during an Interagency meeting, you were informed that the existing dock could not be evaluated for repairs, modification or reconstruction as it had a previous non compliance determination. During a site visit on September 21, 2016, the Corps noticed work being conducted to the existig dock by workers. We have forwarded your request to our Enforcement Section for further investigation in accordance with 33 CFR 326.4(d). Review of your DA application number SAJ-1987-57027 will be held in abeyance until a resolution with the Enforcement Section has been achieved. In order to continue with the evaluation of your request, your full cooperation is appreciated in resolving any outstanding issues.

If you have any questions concerning this application, you may contact Terry Wells by electronic mail at Terry.E.Wells@usace.army.mil, by telephone at (904) 232-2502 or

by address at Regulatory Division U.S. Army Corps of Engineers, 701 San Marco Blvd.,
Jacksonville, FL 32207.

Thank you for your cooperation with the permit program.

Sincerely,

CEDENO-
