 or 212-935-6700

Directed by Academy Award winner James Marsh ("Man on Wire"), "The Theory of Everything" is the extraordinary story of one of the world's greatest living minds, the renowned astrophysicist Stephen Hawking (Eddie Redmayne), who falls deeply in love with fellow Cambridge student Jane Wilde (Felicity Jones). Once a healthy, active young man, Hawking received an earth-shattering diagnosis at 21 years of age. With Jane fighting tirelessly by his side, Stephen embarks on his most ambitious scientific work, studying the very thing he now has precious little of – time. Together, they defy impossible odds, breaking new ground in medicine and science, and achieving more than they could ever have dreamed.
