Subject: Kalamazoo Outdoor Gourmet Kitchen Invoice

Emad,
Per our discussion, attached is the final invoice for Mr. Epstein's kitchen. Please keep it for your records. You may need to attach copies to the pallets when you send them through Customs, but, again, you'll have to verify that with the shipping company you are using. Once we receive the wire transfer, we will authorize our shipping department to release the kitchen to your shipping company. If you could let me know exactly what day they will be in Kalamazoo to do the pick up, it will make the hand-off much easier.

Let me know if you have any trouble opening the invoice or if you have any questions.

Best regards,

Jennifer Timins

Dear Customer,

Thank you for choosing Highway Freight as your freight service provider.

The following page is your invoice, which shows the service charges and the cost of transportation. Please complete it and return it to your shipping agent. Once your signed invoice has been received and payment has been approved, you will be sent a Bill of Lading, which is the shipping document you will need to give to the driver when your shipment is picked up.

If you have any questions, please don't hesitate to call, or e-mail me at mtr@highwayfreight.com.

Sincerely,
Mike Rooker

ANROMI, Inc. d.b.a. Highway Freight is a logistics service provider acting as your SHIPMENT COORDINATOR, and therefore is not liable for the actual shipment(s). Responsibility for shipment (damage claims, undelivered goods, or any other problems with the shipment) lies solely with the carrier(s). All items covered under the carrier's limited liability coverage, using NMFC Item # 100240 Sub-01 unless otherwise classified by the SHIPPER. The CARRIER(S) is subject to all state and federal laws and regulations applicable to the transportation of this shipment and is therefore exclusively liable for the shipment. All used items are subject to the carrier's limited liability of ten cents per pound. The consignee/person who receives the shipment is responsible for documenting on the delivery bill any damage at the actual time of delivery. The weight, size (dimensions), actual services performed (residential or commercial pickup and/or delivery), class, and type of item being shipped, along with any additional services needed, is the basis of this shipping rate. If the final shipment and/or services differ from the amount shown, additional charges may apply, and will be charged to your account. The shipper agrees to pay for the weight, dimension(s), and services performed that actually apply. Proper shipment addressing, preparation, and packaging are the responsibility of the shipper. In the event of a cancellation request, a refund will be provided minus a 15% processing fee. Cancellation is not guaranteed if the shipment has already been dispatched for pick-up at the time the cancellation request is made. The shipper is responsible for providing proper shipment form(s) at the point of origin/pick-up. Failure to do so may result in a twenty (20) dollar service charge. Full payment is due upon receipt of invoice, unless other arrangements have been made and documented in writing. ANROMI, Inc. reserves the right to use a collection agency to collect any unpaid balances. All costs associated with collection of unpaid balances including but not limited to legal fees and collection fees will be paid in full by the invoiced party. By accepting the services of ANROMI, Inc. d.b.a. Highway Freight, you also agree to accept the aforementioned terms and conditions.

Why Choose a Kalamazoo Grill?

History

The Kalamazoo Grill Company has taken great pride in designing and building gourmet outdoor grills since 1906. Our gas grills, charcoal grills, dual-fuel grills (gas and charcoal or wood), grill islands, built-in grills, and outdoor kitchens are built to exacting standards by skilled engineers and craftsmen.

All Kalamazoo Grills feature full stainless steel construction, including frame, cabinetry, burners, hinges, knobs, latches, and grilling surfaces.

Superior Design & Performance

We are the only manufacturer using fully-framed stainless steel design and construction in our grills. It takes more skill to build a grill this way, but the end result is a better product that won't become loose or wobble over time, no matter how much you use it. This design approach is used in the aerospace and automotive industries and allows for optimum strength and rigidity while maintaining high strength-to-weight ratios and resistance to heat.

Most other grills are made in one of two ways: sheet metal box construction or a cast aluminum body with sheet metal covers. The simple fact is that when metal heats, it expands - this is especially true with aluminum and stainless steel.

Grills that are built with box construction will expand and shrink every time you use them. This expansion and shrinkage will impact all the critical fit areas of the grill. Over time, the grill will get weaker and weaker. Eventually, it will start wobbling and slowly fall apart.

Cast aluminum is inexpensive and fairly easy to buy on the market, so many grill manufacturers use it. Cast aluminum simply will not hold up to years of heat. The first thing you will notice is that the finish will begin to corrode and flake. Then the shape of the castings will begin to change. Eventually it will either fall apart or become such an eyesore that you will be forced to throw it away.

Superior Quality & Durability

We build Kalamazoo Grills differently. We start with a stainless steel angle bar frame and attach 12-, 14-, and 16-gauge stainless sheet steel to the frame. Our cabinetry joints are TIG welded by hand, fusing the panels together as one, solid piece for the best appearance and maximum durability.

This superior engineering approach makes good design sense. It guarantees strength and resistance to the dangers of heat, and it allows us to guarantee your grill forever. Rather than create a throwaway product designed by a marketing department, we make a sturdy, lifelong grill with superior looks as well.

Unique Options & Configuration Choices

Kalamazoo Grill not only offers superior quality, performance, and design, but some unique gourmet options as well. Our side-mounted smoker box models are totally unique among gourmet grills, and our dual-fuel models offer an unsurpassed gourmet grilling experience and the utmost in convenience. We offer laser-cut stainless grill surfaces in two thicknesses and four patterns (meat, fish, or veggie patterns and a solid griddle/hibachi surface) that can be customized and/or personalized to your exact specifications.

Outdoor grill islands and custom outdoor kitchens are also available, allowing you to create the kitchen of your dreams in your backyard.

Other Kalamazoo Outdoor Gourmet Lifestyle products include an outdoor Martini Bar and stainless storage box with the same durability, craftsmanship and attention to detail as our gourmet grills.

If you're looking for the highest quality, longest lasting outdoor grills and lifestyle products on the market today, you need look no further than Kalamazoo Grill.

Just some of the features that make a Kalamazoo Grill the best and most durable grill on the market...

Hardware

Our hinges, latches, handles, drawer runners and other hardware are all industrial grade and made entirely of high quality stainless steel.

Knobs

NO PLASTIC! Our control knobs symbolize our commitment to strength and durability. Machined from a solid ingot of stainless steel, these knobs will simply last forever.

Cast Stainless Steel Kalamazoo Grill Dragon Burners

We have tested many types of burners and determined that a "bow-tie", shaped cast stainless steel burner provides the best all-around heat source and the longest life. Our unique Kalamazoo Grill Dragon Burner design uses this bow-tie shape to best distribute heat across your grilling surface.

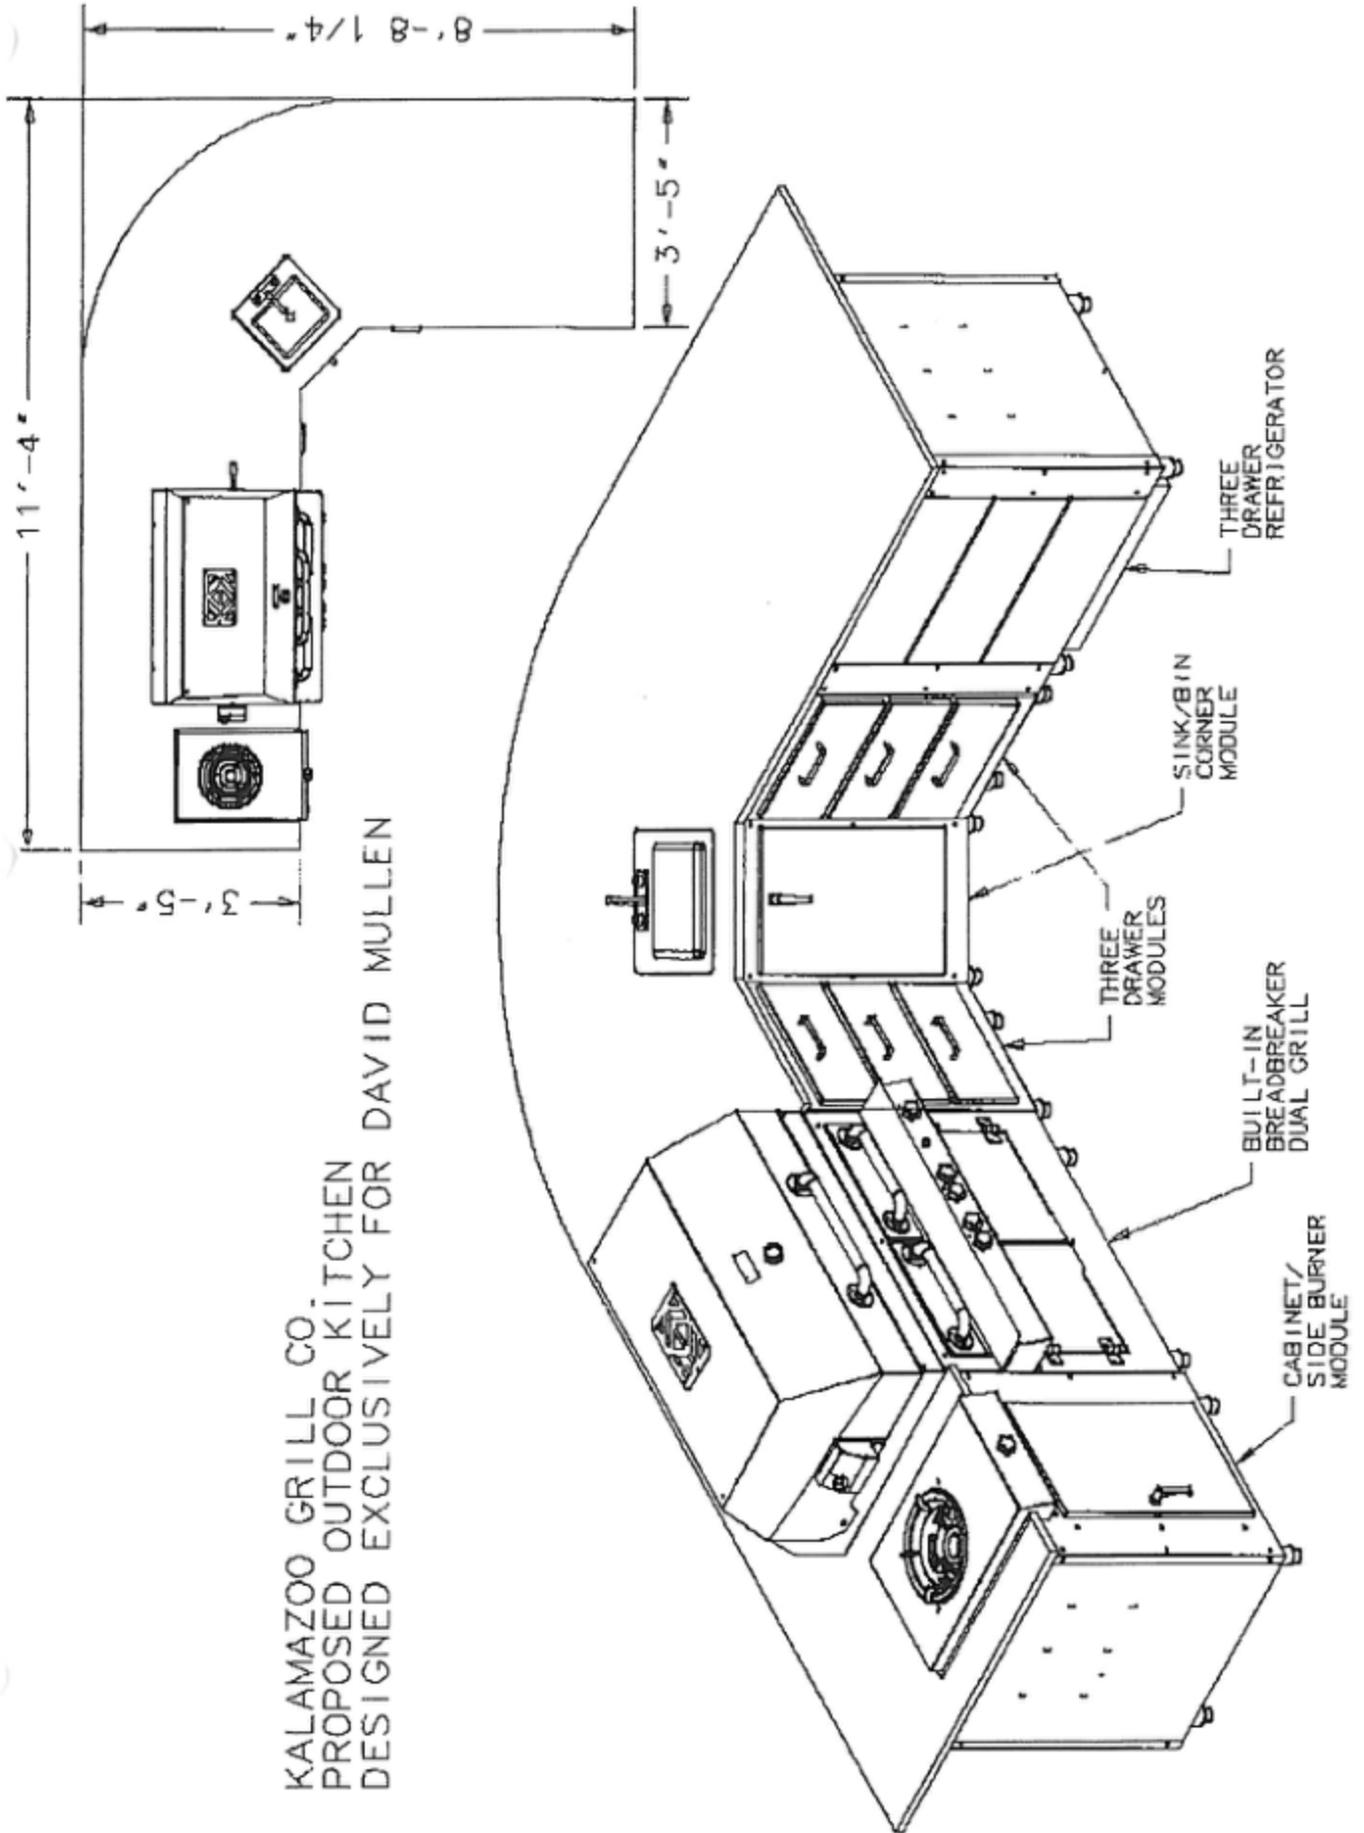

Stainless Steel Cooking Surface

Kalamazoo Grill offers exclusively our patented stainless steel cooking surfaces. Laser-cut out of either 1/4" or 3/16" solid plates of 304 food-grade stainless-steel, these cooking grids are designed for specialized types of cooking... beef... fish... veggies... or a combination of these... as well as a solid griddle/hibachi surface. You configure the cooking surface to best suit your gourmet grilling.

Personalization

We will laser-cut your initials, company logo, family shield, or any other design into our patented 1/4" and 3/16" stainless steel cooking grids. A three-letter monogram is considered a standard upgrade for an additional fee. All other designs are quoted individually.
