Hello Emad-

This genset is in stock, we can ship as soon as payment in full is received.

I will be back in the office on 3/2/07 at 9:00 AM. We will discuss this order at that time.

You may call anytime and leave a message -

Thank you  
Joe DeMers

The MASPOWER series generators are powered by water-cooled Yanmar diesel engines. They not only meet all of today's stringent emission regulations but are designed to meet those of the future. They beat the competition with their low noise levels making them ideal for a wide range of applications. These units are the best in their class for fuel economy resulting in reduced operating costs. The engines are coupled with heavy duty 12 lead reconnectable generators. This allows the units to be wired single or three phase at a wide range of voltages. They are self exciting, synchronous, and brushless.

20pmy

**Standard Features:**

- \*Weather proof sound attenuated housing
- \*Lockable doors and control panel cover
- \*Insulation class H
- \*Vibration isolation mounting between engine/generator feet and base frame
- \*Double walled base fuel tank
- \*Heavy Duty dry type air filter
- \*Fan and belt protection guards
- \*Battery charging alternator
- \*Battery, rack, and cables
- \*Critical exhaust and silencer
- \*Oil drain plumbed to frame
