Dear Jeffrey,

Attached is my CV for the jobs in legal (in-house or law firm), wealth management (front desk roles (investment advisor, client advisor), compliance, legal), or for family offices in Bay area.

Also, I would be excited to work for a VC and to be responsible to raise funds, do business development or to manage the investor-startups relations. However, I do not have any official experience in this.

This is the visa with which I can work in USA :

Afterwards, the company would have to sponsor me.

Thank you in advance.

Kind regards,

p.s. Masha called me all enthusiastic about her project on you. The journalists came and you brilliantly talked to them, she says :)
