Stephen,

I am expecting to have the draft of the purchase agreement back by the end of the day today.

I will also send the electronic logbooks and work order this afternoon as well. We will also have somebody set up a skype call so that we can do the walkthrough with your group. What day and time would you like to do this call?

Lastly, per the bank's request, please send a copy of your driver's license or passport as well as the formation documents for FSF, LLC. The bank needs to clear all members who have a 10% or more share in the LLC. They will need a physical address for FSF as well.

Thank you,

To answer your questions and comment in order:

1. When would you like to have your rep visit the aircraft? I will have to check on availability of support for this showing.
2. I will follow up with GE to check on status of the APA. I personally expect this to be available the first half of this coming week.
3. I don't know if this is possible but I will speak with people more tech savvy than I am to find our best solution.
4. I will ask now for an update CMP status report and will try and provide copies of any recent logbook entries.

Stephen,

[REDACTED] sure this won't be a problem to get somebody to walk around the cabin during a face time call if that's what you would like. Are you or any of your representatives planning to travel to Pontiac, MI to come see the aircraft or will you rely solely on the face time call?

For your reference, I have attached the Avpro spec (which should be independently verified for accuracy) as well as a recent CMP Due list and status report. I also included the ARCS (prebuy) report from Gulfstream.

What is the best phone number to reach you on for the face time call of the interior?

Thank you,

Kevin
even better can we ask if someone can facetime or skype from within the plane.
Think that would be quickest and best
