I agree with what you are saying about the connection over to the library. But I think we have made a lot of progress on all of the other areas. We have moved a long way from the last time I was at the Island, and we had the open pool northeast of the main residence, at the low elevation just above the road.

We want to work with you to move this forward, but there are still many moving targets at the main residence. Is the living room location set? Are the north terraces set?

As soon as we have your comments about the paving images I just sent, we will prepare some detail paving patterns to review.

Thanks,
Warwick
