Here is some data on the plane (6044) we are looking at. I've also attached a comparison of financing proposals we've received. I'm asking our consultant to comment on how 6044's avionics and high speed internet compare to industry standards. We are focusing on 6044, but also considering 6071, which I believe is one of the planes you mentioned to us a while back.

Subject: 6044 Broker Listing Sheet

Barry,

I wanted to pass along to you the broker's listing sheet which provides more detailed information about the aircraft. If you have any specific questions about the aircraft or the information shown let me know.

I have asked for more detailed information on the 35 Cabin Enhancement that they reference and some other technical information that we would like to review.

We will put together an overview of the aircraft for Leon and Debra to assist them in evaluating the aircraft beyond the pictures they have seen to date.

I have advised the broker that once this information is received we will be meeting with the principal's to discuss the aircraft and assuming they are still interested we can then visit next steps including providing their identity and having them see the aircraft.

Talk to you soon.

Best Regards,
Lee
