Technomad OSLO subwoofers - 4 in the order - link below:

<http://www.technomad.com/products/oslo/>

i understand our speakers are green however i do not have photo as they are boxed at tropical sailing tonight

when i spoke with Sean (Carribbean AV) yesterday and asked him for photos for rack and voltage regulator he refused and hung up the phone on me

i asked jermaine to obtain another quote however i know you will want installed as soon as they arrive

in the meantime i asked jermaine to price 3 materials needed per attached quote so we can self perform if you prefer

jermaine said he worked with randy last time and he would be happy to do again

although larry had concerns about jermaine installing it appears that attached quote had about 4-5k of fluff

please advise

thank you
