Dear Jack

I would be very interested in your best students who have finished PhD in fields such as mathematics, computer science, physics or mathematical biology, bioinformatics.

I am a professor of mathematics and biology at Harvard university and director of the program for evolutionary dynamics.

Please let us discuss details.

Best wishes

Dear Jeff: I have been on travels. Sorry for this belated response.

I have checked with President Qiu and Provost Yang. First of all, do you mean we send brightest students or faculty members to meet you?

Second, could you introduce the relevant contacts at MIT Media Lab and other institutions to me, so I can push forward the student exchange or other collaborations with them, with your support.

Regards,
Jack
