Subject: Celebrate Heart Month with AFHU

Date: Thu, 23 Feb 2017 21:03:53 +0000

[Heart breakthroughs and HU cardiology leaders](#)

[View this email in your browser](#)

During American Heart Month, AFHU reflects upon cardiological breakthroughs and the heart of its mission.

Just in the past year, Hebrew University faculty and students identified new ways to predict heart disease, discovered how a specific protein can lead to heart failure and shown how teen BMI can predict the risk of cardiovascular disease in adulthood.

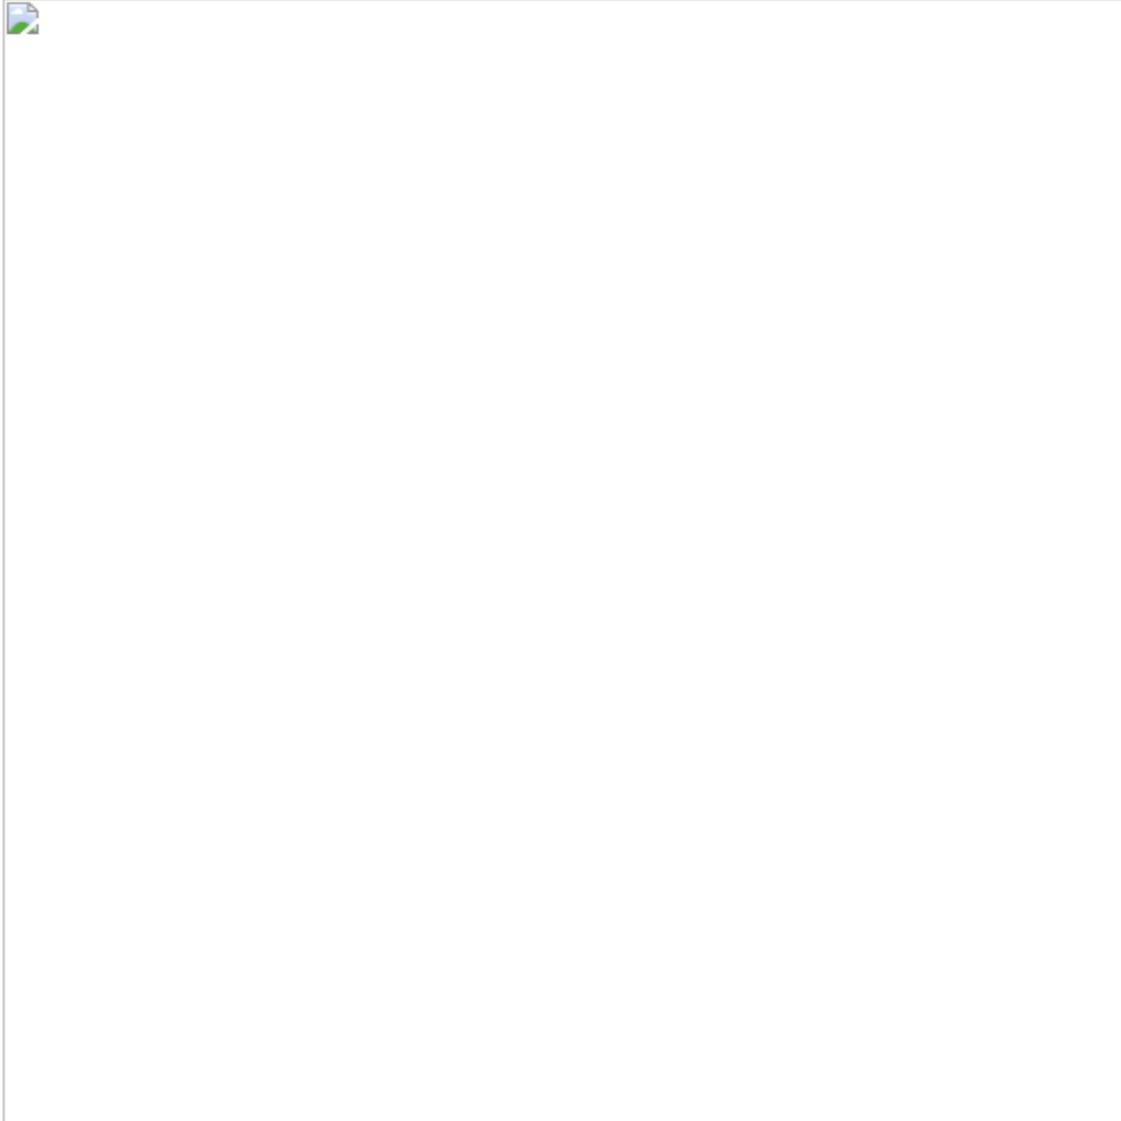

[Thanks to donors like you, we are able to continue this groundbreaking medical research.](#)

AFHU also celebrates Hebrew University alumni who champion heart health, such as [Dr. Yitschak Biton](#), an award-winning cardiologist. Dr. Biton received his MD at HU as the recipient of an ISEF Foundation International Fellowship and is now an ISEF postdoctoral

candidate at Harvard University.

Hebrew University's commitment to the advancement of education and research is truly at the heart of AFHU's mission.

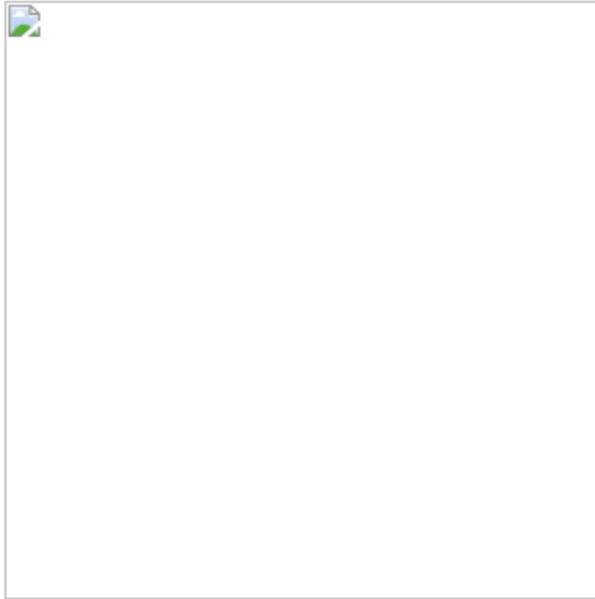

[Help us continue to support life-saving research and advancements.](#)
