Pen,

I love you very much and I am very hurt by your behavior. I needed by boyfriend to calm me down and help me solve the problem -instead of accusing me of giving him anxiety and making sarcastic comment. I agree that I overreacted - after being attacked in the street and robbed a few times, to see my driver take off very fast, with very valuable things for me, and turn his phone off, was a pretty big deal for me. He only answered the phone 40 min later and was very rude to me. I ended up waiting outside your place for him for another 40 min, he asked for money and said I should be thankful he came back... Maybe I am wrong, but I think men should handle these things and I am surprised you didn't even call me to ask if I was ok (you saw how upset I was).

I think both of us need some time to think. I need to go to Russia for a few days. Why don't we talk when I get back at the end of the next week?
