The proposal from ISC amounts to 13,605 € + VAT = 16,326 € all taxes included.

It includes all accessories, as well as the work for the installation, connection, tests

It corresponds to the replacement of the existing central telephone exchange (located in the small corridor leading to Mr. Epstein's bedroom) for an amount 8,780 € without tax + the purchase of 16 new telephone sets "openstage 60T" for 6,336 € without tax - 10% reduction. See attachment.

Please advise if I can proceed with the wire transfer from Mr. Epstein's account in Paris for the down-payment of 4,000 € to ISC to confirm the order.

Best regards.

Ms Experton,

Please confirm that the final cost before tax for the system is 13,605 Euros and it includes installation.

Thank you,

Bella

URGENT

The proposal from ISC is not compatible with optic fiber and cannot be. It has nothing to do with internet connection. It simply concerns the replacement of 16 telephone sets as well as the general telephone exchange. Some of the old telephone sets will be maintained and will remain connected through the new telephone exchange.

Unless otherwise instructed by yourself I will proceed (this afternoon - French time) with the wire transfer of 4,000 € corresponding to the down payment to confirm the order, Mr Epstein did personally with ISC.

Best regards.
